

MARCH 2010

Express Lanes Changing in Utah County to Accommodate I-15 Reconstruction

UDOT is beginning work on the reconstruction of I-15 from Lehi to Spanish Fork. For safety reasons and because of planned lane restrictions and closures during construction, 10 miles of the Express Lanes will be restriped as a general travel lane from Lehi Main Street to University Parkway. This change will begin as soon as April of this year and last until the anticipated completion of reconstruction at the end of 2012.

The I-15 reconstruction project will add additional travel lanes from Lehi Main Street to Spanish Fork and extend the Express Lanes. Upon completion, the Express Lanes will stretch contiguously from 2300 North in Salt Lake City to U.S. 6 in Spanish Fork.

We apologize for the short notice regarding this change. An aggressive construction schedule is starting as UDOT embarks on one of the largest construction projects in Utah's history. If you have questions or would like to be reimbursed for your April decal, please call 801-887-3790 then mail your unused pass to Express Lanes, 2060 South 2760 West, Salt Lake City, UT 84104.
